HEADTEACHER'S MESSAGE

Quotation of the week

*"Nothing is so strong as gentleness,
nothing so gentle as real strength"*

St Francis de Sales.

We sometimes hear people described as 'gentle giants'. Those who are strong often have no need to prove this to others. When we talk about strength we are not simply thinking of physical strength. Strength comes in many forms as does gentleness. During this season of Lent we can show our strength in the acts of kindness and gentleness that we show towards others.

Did you know?

On May 7th 2020, London will choose who should be Mayor of London for the next four years. Many of our Yr 13 students will have turned 18 and so be old enough to vote. The London Mayor is elected by Supplementary Vote which means that we all get the chance to choose our first and second preference. All the first preferences are counted and then all but the top two candidates are eliminated. The second preferences of the eliminated candidates are then added to the votes cast for the top two candidates, which means the winner has a majority of all the votes cast. In 2016, Sadiq Khan was elected comfortably by 57% to 43% in the final run off.

This year there are 7 main candidates - Sadiq Khan (Labour), Shaun Bailey (Conservative), Siobhan Benita (Lib Dem), Sian Berry (Green), Mandu Reid (Women's Equality Party) and Rory Stewart (Independent).

Corona-virus update

As you would expect, the school is keeping a close eye on the corona-virus situation and will follow the advice we are given by the government. Some of the steps that we have taken thus far include:

- Provision of hand sanitisers in all classrooms
- Additional cleaning of door handles, light switches etc
- Advice to students and staff about hand-washing and how to protect oneself against this and other viruses
- A close check on any students and staff with any underlying health conditions that might make them more vulnerable
- Making contingency preparations in case of staff absence or school closure and ensuring, in particular that exam preparation goes ahead and is not subject to disruption

A more detailed letter to parents will follow.

HEADTEACHER'S MESSAGE

Parents' evenings this term

We have the final parents' evening of the year for **Yr 8** on Thursday 19th March from 4pm to 6.30pm on the Wiseman Site.

Aquinas Trust Mass

We had a lovely Mass on Thursday of this week for all students from schools in the Aquinas Trust. Holy Family were joined by OLSG, St Patrick's and St Joseph's Infants and Juniors. Our thanks to Mr Alexander for making the arrangements and to Fr Gerry for celebrating the Mass for us. In common with all services in the diocese, the shaking of hands as the sign of peace has been suspended, as has receiving communion from the chalice. Holy communion is received in the hand only. The students were excellent and got a lot out of the experience of participating in a Mass with children from Year 2 to Yr 13. Thanks to our lay chaplain Mrs Grierson for putting the arrangements together and thanks to our excellent students who will be receiving commendations below.

Parents' surgery

Parents' surgery takes place every Thursday from 4pm to 5pm.

If ever I am unavailable then a senior colleague substitutes for me.

Please continue to remember us in your prayers.

Dr Andy Stone

Headteacher

Headteacher **COMMENDATIONS**

This week we have headteacher commendations for the students who represented the school at the Aquinas Trust

Mass on Thursday. They are:

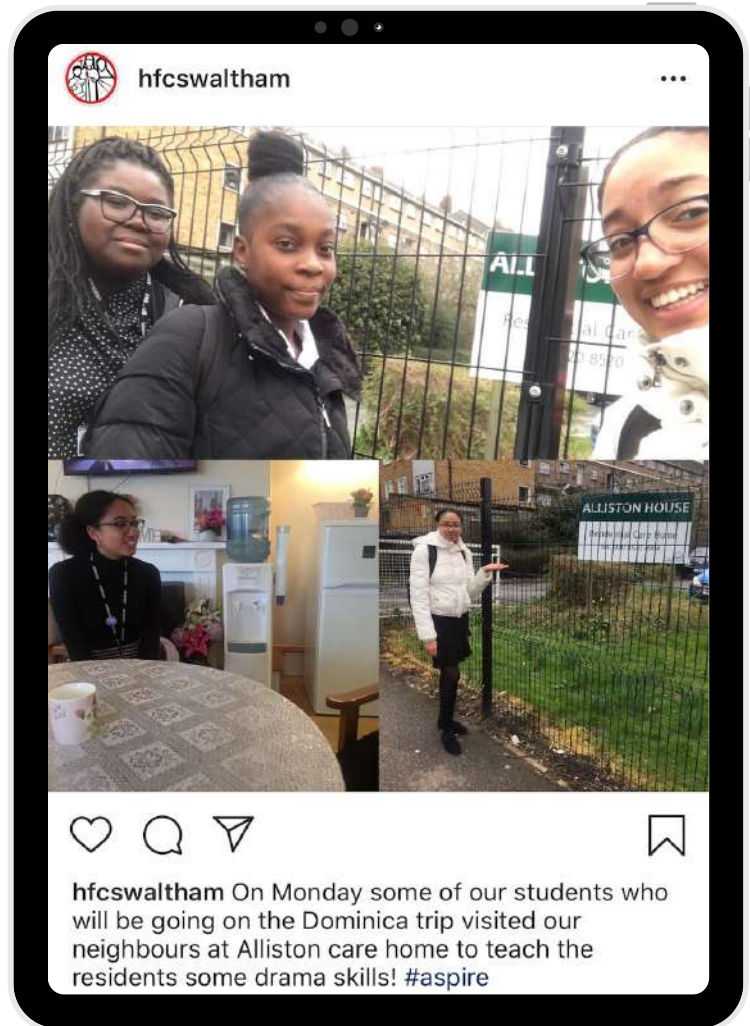

Berenise Dzah 7R, Simon Opuku-Yeboah 7Ig, Nicholas Niemczyk 7R, Rory O'Corbaidh 7P, Jane Themudo 8P, Stacy d'Souza 8S, Aleesha Loates 8S, Marine Kerowgodage 8S, Shanel Bhatti 8R, Giulia Distefano 8R, Emilia Biedrowska 8I, Fabrice Fidegnon 8R, Samuel Huet 8EL, Jericho Gonzales Sabarias 8EL, Jotham Banya 8A, John Shotikare 9R, Vira Vitiv 10A, Esther Annobil 10R, Jill John 10S, Ayse Demiroglu 13I, Megan Najman 13I.

Congratulations to all our commendation students this week!

SOCIAL MEDIA CATCHUP

@hfcswaltham

@hfcswaltham

The latest digital trend growing in popularity for our children are apps on their phone or tablet that look like one thing but are secretly hiding another purpose. They first became particularly popular in 2016. However, children are becoming more and more familiar with 'secret' photo hiding apps, where an app which looks relatively ordinary is actually a hidden gateway to private photos and videos. These apps allow their users to hide images, videos and notes within the app which is also passcode protected. One of the most common types of hidden app used is a 'fake calculator' app however many others are also available.

What parents need to know about HIDDEN PHOTO APPS

MAY HIDE 'SEXTING'

The most common use for the apps is to hide 'sexting' images which young people may be sending or receiving. This problem is growing rapidly amongst students, and from an increasingly early age. Not only is sexting dangerous, but it is illegal when it involves a minor even if both the sender and receiver are underage. By storing and sending these images, young people should be aware that they are committing a crime.

ENCOURAGE IMPULSIVE BEHAVIOUR

Young people tend to act more impulsively if they believe that their behaviour will go unnoticed and remain secret, so often they will produce content for these apps thinking that it will be safe. Let's face it, how many adults read all the small print in the terms and conditions, so why would we expect our children to.

FAKE/DECOY PASSWORDS

Some of the most secure apps that are available offer the ability to set-up a decoy feature as an added layer of security. This allows the user to provide a fake password which, when used, directs people to a decoy folder containing content of the user's choice or just stock photos. The real password provides access to the secret folder within the app.

PRIVACY RISK

If you are aware that your children are using the app, you should read the small-print in the usage policy/terms and conditions to ensure the developers do not have access to any of the images stored on the device. If the photos are linked to a cloud storage, then the images stored are also in danger of being released if the application is compromised/hacked.

BYPASS PARENTAL CONTROLS

Although these apps are not specifically 'targeting' their advertisements towards children, they can generally be used by anyone over the age of 4. This means that these apps will not be blocked automatically by parental controls. Whilst online platforms, such as Apple, have removed these apps on numerous occasions from their app store, due to their popularity and potential profitability for creators, they continue to be produced and find their way into the stores or available for download.

Safety Tips For Parents

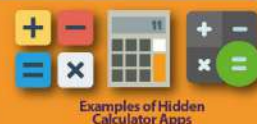

TRY TO REMAIN VIGILANT

There is a natural human instinct to believe that what we see on screen is real and accurate. If you are concerned that your child might be using secret apps, you may want to look at their phone. The search feature on a device can be used to type keywords such as 'secret', 'hidden' and 'photo vault'. On iOS, this can be done by swiping down on the home screen to open a search bar. If the app appears and says 'Open' then the app is installed. If it says 'Get' then it is not installed. On an android device, you can go to the apps menu and use the search bar at the top of the screen.

QUESTION THE AUTHENTICITY OF DUPLICATE APPS

You should be aware that almost every mobile device will have pre-installed apps, such as notes and calculator, so the first major warning sign would be to look for duplicates of these apps. By default, the pre-installed apps are almost always displayed on the first page of the home screen.

DISCUSS THE DANGERS OF 'SEXTING'

Ensure your child is aware of the dangers of sexting, and how it is illegal to keep or distribute images of minors. Try to talk to your children in a positive way and encourage them to take control of their online persona and what they are posting to others. Remind them that they always have a choice and that they can say no to anything that makes them feel even the slightest bit uncomfortable.

LOOK OUT FOR IN-BUILT 'HIDDEN' FEATURES

iPhones have the option to lock notes within the default Notes app. Users can paste images into a note file and lock it using Touch/Face ID and a password. In addition, iOS allows their users to move images to a Hidden folder in the photos app. When an image is moved to the hidden folder, it is removed from the 'All Photos' folder. To find this folder, open the 'Photos' app, scroll down and click 'Hidden'. Users may also create folders to try and hide the app on their home screen or on a second or third page. If you see a folder on your child's device, ensure you check each page for hidden apps.

CONTROL APP USAGE

If your child's iOS device is linked to your Apple ID account, you are able to set a password for downloading apps which only you know. This will mean every-time your child tries to download an app, they will need your password to do so. If you do not have access to your child's Apple ID, you can delete the app without a passcode. This will delete any images stored on the app and will not be recoverable, even if the app is redownloaded.

Meet our expert

Emma Davis is a cyber security expert and former ICT teacher. She delivers cyber awareness training to organisations nationally and has extensive knowledge and experience of managing how children access services and apps online.

SPORTS UPDATE

Holy Family hosting Primary basketball with our Sports Leaders in charge, helping and referring games!

A great day @HFCSWaltham for our 3v3 basketball competition. Well done to @Greenleafe17 @R2Woodside ,Our Lady and St George Primary and St Saviours primary for making it through to the borough finals.

Also this week Yr 7 and 8 netball teams traveled to Eden school. A fabulous win for both teams, Year 7 won 11-0 and Yr8 won 22-0.

Chaplaincy Corner

- Mrs. Grierson. Chaplaincy

Last Thursday we welcomed Fr Niall to spend the morning in our Chapel, offering Reconciliation to students on the upper site.

Because of our natural tendency to sin, we break our relationship or our connection with God, choosing other things in favour of that relationship. We need to repair that bond with God and with the Church through the Sacrament of Reconciliation, or confession. We tell our sins to a priest who absolves them and restores our relationship with God to wholeness again. God always forgives us, but the sacrament does more than offer forgiveness, it formally reconciles us with God and the community.

Recently, Bishop Alan announced that Fr Niall is to be a Canon. A canon is a member of the chapter of priests and are the formal body which has legal responsibility for the cathedral and for electing the bishop.

We offer him our prayers and best wishes

Lent is about helping others. Simon, a Cyrenian, helped Jesus to carry his cross. There are lots of people in our lives that we can provide a "helping hand" to, and Year 7 and 8 Peace Club made this poster to show their commitment – helping parents, helping a friend to revise, trying to be a better person.

Dear God,

If I cannot be brilliant, let me be kind.

If I cannot change the world, let me inspire just one other to do so.

If I cannot give away riches, let me be loving.

Let me be known for kindness, for it is the greatest glory.

~Amen

Chaplaincy Corner

- Mrs. Grierson. Chaplaincy

Key dates – Lent 2020

Sunday 15th March – 3rd Sunday of Lent

Monday 16th March – House Charity Fortnight begins

Thursday 19th March – Feast of St Joseph

Sunday 22nd March – 4th Sunday of Lent (Mothering Sunday)

Sunday 29th March – 5th Sunday of Lent

Friday 3rd April – last day of term

Sunday 5th April – Palm Sunday

Thursday 9th April – Holy Thursday

Friday 10th April – Good Friday

Saturday 11th April – Holy Saturday

Sunday 12th April – Easter Sunday

Monday 13th April – Easter Monday

Monday 20th April – return to school

Thomas Aquinas Teaching Trust

Schools from around the Deanery came together at St Joseph's church for a Mass, celebrated by Fr Gerry. This is an annual event and schools represented included Our Lady & St George Primary, St Joseph's Primary, St Patrick's Primary and Holy Family. Our students included Yr 7 representatives nominated by their Head of Year, the school Liturgy Leaders and our deputy Head Girls. Thank you to Jill in Year 10 for processing the banner during the offertory. All students were wonderful ambassadors for the school.

#EachForEqual

Sunday was International Women's Day and the theme this year is **#EachForEqual**. Students have been taking part in special lessons in their History classes and year 8 did a whole day on female activists and gender inequality.

This International Women's Day, let's take action to create a more equal world

#EachforEqual

We've taken part in an

**IET Faraday
Challenge
Day**

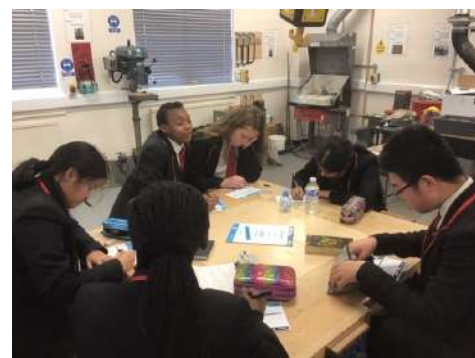

theiet.org/faraday

Year 8 STEM Club Win IET Faraday Airbus Challenge

We are under strict instruction to keep the full project brief for the IET Faraday Challenge Days under wraps, so that other schools don't benefit from knowing what is expected from them in advance. We can tell you that teams must race against the clock to solve a real-life engineering problem, putting their engineering and technology skills to the test.

We won a trophy and the winning team (Ted, Sam, Timothy, Almaz, Aleesha) received £10 voucher each.

IET Faraday Challenge Days give students the opportunity to research, design and make prototype solutions to genuinely tough engineering problems. FCDs enable young students to experience working as an engineer for a day. At each event teams compete to win a prize for themselves and a trophy for their school.

Our school is passionate about giving our students new and exciting opportunities to engage in STEM subjects. A strong UK economy relies on great engineering output, and it is crucial to get the engineers of the future interested at an early age.

The Institution of Engineering and Technology (IET) runs the Faraday Challenge Days as part of the IET's commitment to show young people the benefits of careers within Science, Technology, Engineering and Mathematics (STEM).

We would like to thank Walthamstow School For Girls for hosting the challenge day.

WORLD BOOK DAY

World Book Day Competition

As part of World Book Day on Thursday the 5th March, all Year 7s and 8s took part in a competition to produce either

- *A Book Review of your favourite book*
- *An alternative front page for a book you've really enjoyed*

There were many wonderful entries, and the English Department were extremely impressed by the quality and imagination displayed by our KS3 pupils - so many budding artists, writers and graphic designers!

After much consideration, the judges decided the following entries were the winners:

Runners up (£10 Book voucher)

Year 7 - Lewis Benjamin 7IG (Max and the Midnights)

Year 8 - Mary Giwa 8E (Chomp)

Winners (£20 Book Voucher)

Year 7 - Eva Piotrowska 7I (Ratburger)

Year 8 - Emilia Biedrowska (The Battlemage)

The winning entries are displayed below!

Well done to all those who entered!

PSD DAY

On Monday we had a drop down day. Each year group got to be involved in enriching activities to help develop their skills! Take a look at just some of the things that were going on...

7 likes

soccology1 Soccology program delivered at Holy Family Catholic School and Sixth Form.
What did we cover? Vulnerability, shame and self esteem. All are connected.
Nothing is more fun than working with young people.

SOCCOLOGY WITH YEAR 11

Using the power of football to change the world staff from Soccology came and gave a great talk on self-esteem.

English Live Creative Writing Trip

Students in year 11 got to visit The Tower of London and The Garden @ 120 Fenchurch Street to take part in some live creative writing in prep for their GCSEs!

PSD DAY

This Monday, Year 12 were involved in the BEE Careers Interview day, which gave everyone the opportunity to be interviewed by a professional interviewer for a mock job application.

In order to prepare for this, the year group was given a mock job description for a role as an M&S sales assistant. Following from this, we had to write a professional covering letter, detailing why we would like to be offered this job, and how our skills and past experience can be adapted to the job role. Furthermore, we also had to write a CV; we were given useful tips and advice which helped

us to understand what employers want to see in one, and what makes it successful. A strict deadline was set for the CV and covering letter, in order to give us an insight into the narrow rules and regulations of the professional working world.

On the morning of the interviews, the year group were split up in multiple groups of 5, with each group being assigned an interviewer. As well as being interviewed, we watched our peers in our group being interviewed, and had to later give them feedback, commenting on their responses and overall performance. We were asked questions such as why we are a good fit for the job, what we know about the company we're applying for (M&S), how our past experience has impacted our skill set, and we were also given typical scenarios we'd meet on the job, and had to answer how we'd overcome these challenges effectively. Once finished with our interviews, one person was chosen for the job in each group!!

All the incredible volunteers busy writing up their mock interview feedback for the 6th Formers at Holy Family School! Some amazing interviewees... the future is bright for Holy Family

students...[@HFCSWaltham](#) [@Capco](#)
[@matterarch_uk](#) [@MVFGlobal](#)
[@BNPParibas](#) [@btsport](#) [@JCoSSIJE](#)

PSD DAY

To end the day off, we were given the opportunity to network with all the interviewers, who had professions from a wide range of sectors including law, architecture, marketing, teaching, and many more!! Lastly, a talk was given by a speaker from Leicester University, outlining the opportunities and courses offered by universities across the country; we were given insightful information about the range of courses, and how they can lead to numerous pathways in life.

Overall, the day enabled the entire year group to gain useful experience of getting into the professional world, giving us tips and advice for all interviews and applications in the future - it was a really insightful day for us all.

Chloe Contaldo

Business Outside the Classroom

Our year 12 Business Studies students learning about the world's largest flat pack company: IKEA. They had a talk about operational management and sustainability. Former student Richard Freeman facilitated the visit.

PSD DAY

Yr 10 Start-up Success

“It's nice to see that even those that perhaps present challenging behaviour at times are engaged and doing work, some are even leading the team”

Teacher, Year 10

“I normally just get on with things by myself but today I have actually listened to others and heard their ideas and mixed them with mine. It's been really good to work together.”

Student, Year 10

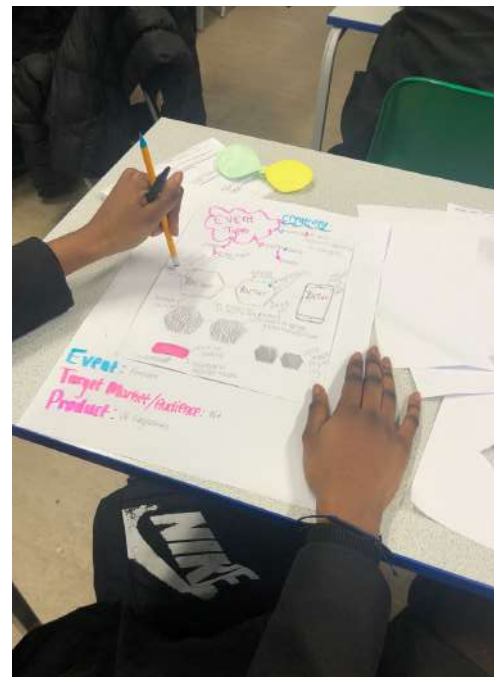

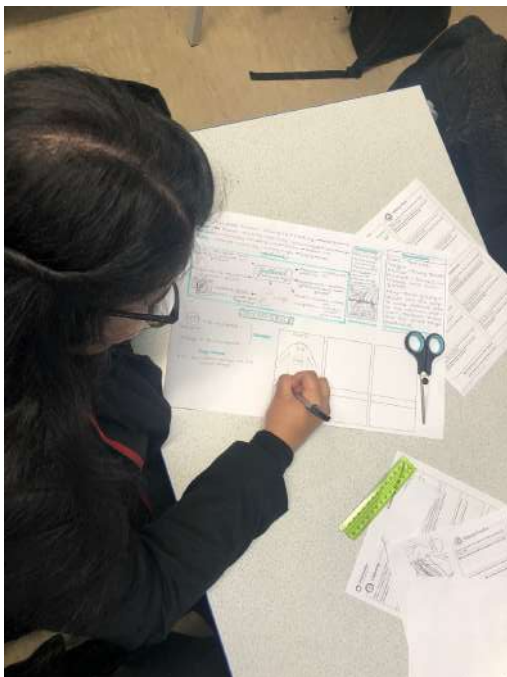

Learners explored the world of enterprise by setting up and running their own start-up companies. Over the course of the challenge, the budding entrepreneurs were putting their Leadership and Creativity skills to the test whilst allocating roles within their newly formed companies and coming up with a new range of products or services.

Learners then applied Teamwork skills alongside Problem Solving to ensure that everyone in their team contributed to final designs and the creation of their offers. Tight deadlines and even tighter budgets then tested their Staying Positive skills as the clock ticked away.

The day culminated with every team showing off their Listening and Presenting skills by giving presentations to explain why their offers were the best, in a bid to outdo their competitors.

Looking back on the challenge, learners applied Aiming High to reflect on the essential skills they had applied to their highest standard and those they would like to develop further.

We would like to thank Emma Crighton from The Skills Builder Partnership for spending the day with us and supporting staff and students so that sessions ran as smoothly as possible.

Our slice of Pi

THE MATHS DEPARTMENT CELEBRATED PI WEEK FROM 9TH - 13TH MARCH AND HAD LOTS OF ACTIVITIES THROUGHOUT THE WEEK!

PI DAY IS ACTUALLY ON SATURDAY THE 14TH OF MARCH (3.14..) EACH YEAR.

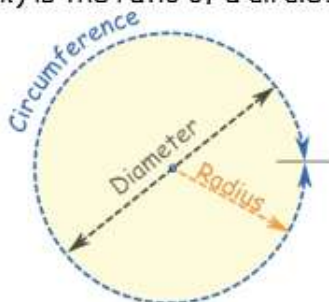

STUDENTS HAD DROP DOWN LESSONS IN MATHS AND HAD THE CHANCE TO EXPLORE ENRICHING ACTIVITIES OUTSIDE OF THE CURRICULUM. THIS INCLUDED MATHS IN ART, THE GOLDEN RATIO, CODE BREAKING, EGYPTIAN MATHS AND IMAGINARY NUMBERS. DURING FORM TIME, NUMERACY ACTIVITIES WERE BASED AROUND PI.

THERE WAS ALSO A STAFF PI DINGBAT QUIZ WHICH WAS CIRCULATED TO ALL THE STAFF.

AS WELL ENRICHING MATHS LESSONS, PUPILS TOOK PART IN BAKE SALES, PIE LUNCH AND OTHER ACTIVITIES TO CELEBRATE PI DAY. OUR ANNUAL PI-OFF COMPETITION RETURNED WITH STUDENTS MEMORISING AS MANY DIGITS OF PI AS POSSIBLE. THERE WERE SOME EXTREMELY IMPRESSIVE RESULTS WITH MANY STUDENTS MEMORISING OVER 100 DIGITS OF PI! OUR WINNER WAS ANGELINA IN YEAR 9 WHO BROKE HER OWN RECORD FROM LAST YEAR OF 226 AND MANAGED TO RECALL A WHOPPING 260 DIGITS OF PI! THAT IS A FANTASTIC EFFORT AND ANOTHER SCHOOL RECORD - WELL DONE ANGELINA!

What is Pi?

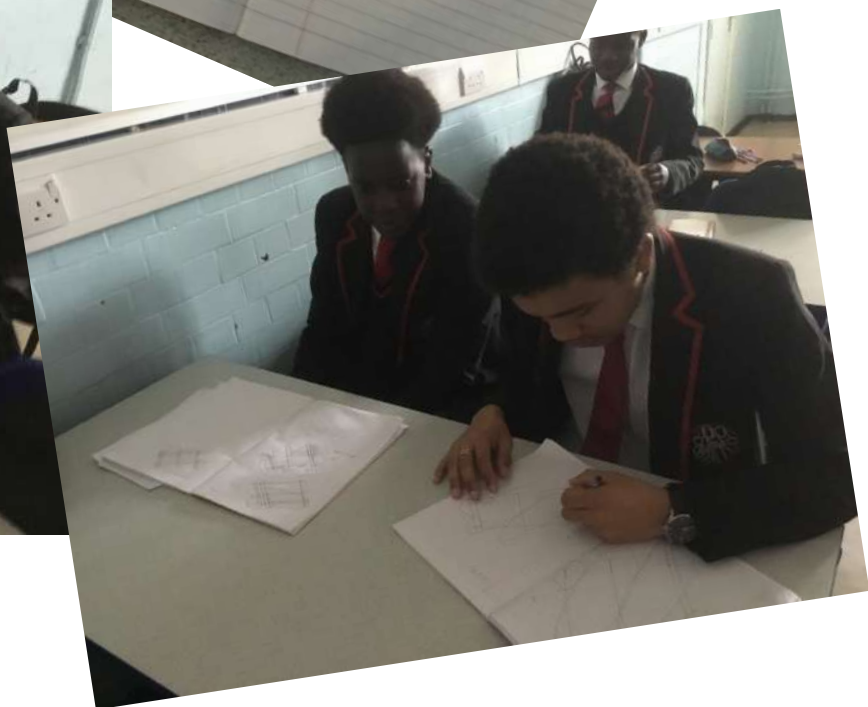

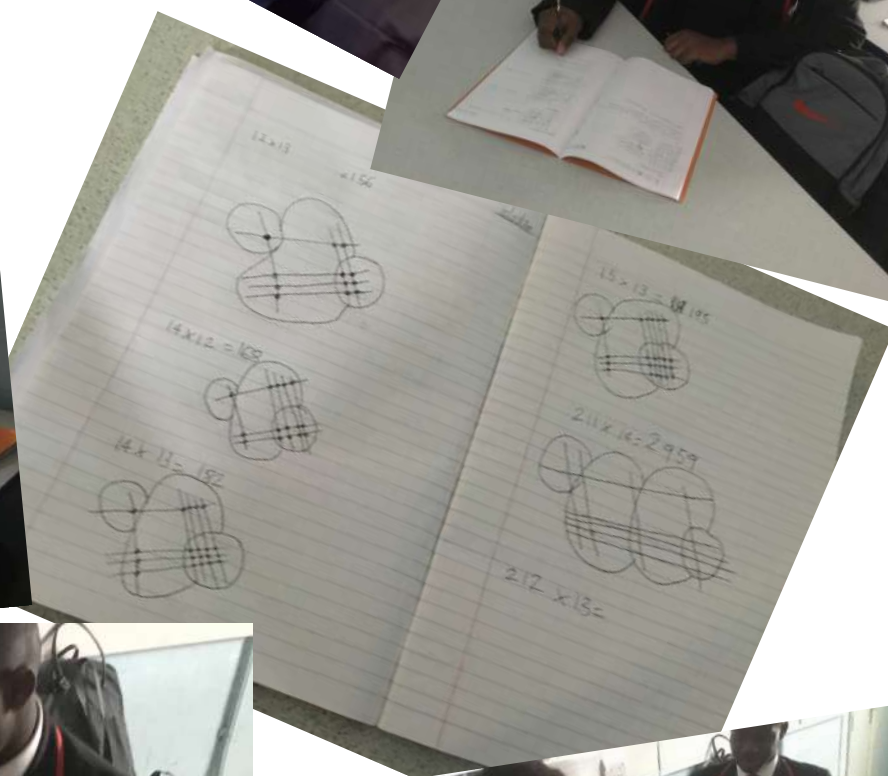

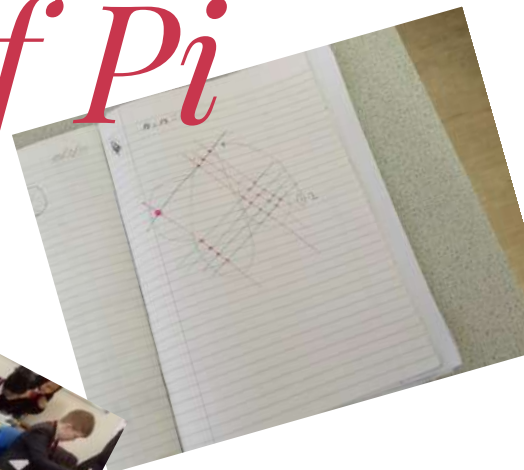

Pi (π) is the ratio of a circle's circumference to its diameter.

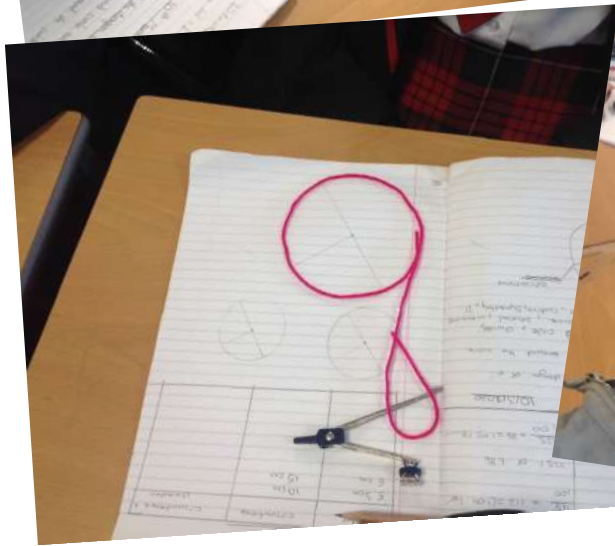

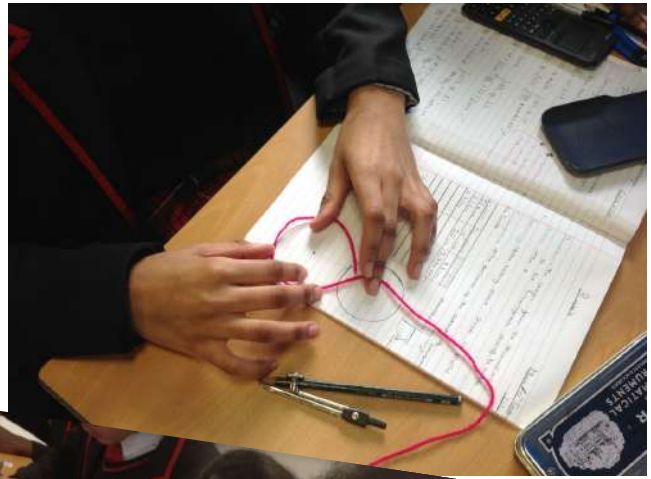

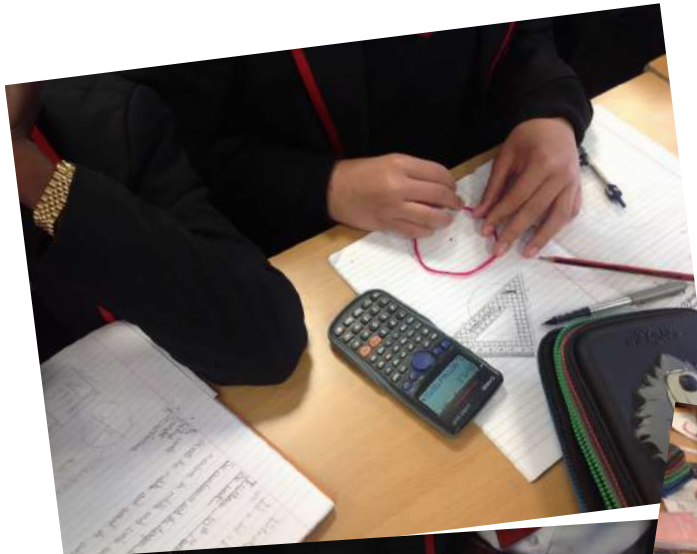

$$\frac{\text{Circumference}}{\text{Diameter}} = \pi = 3.14159...$$

Our slice of Pi

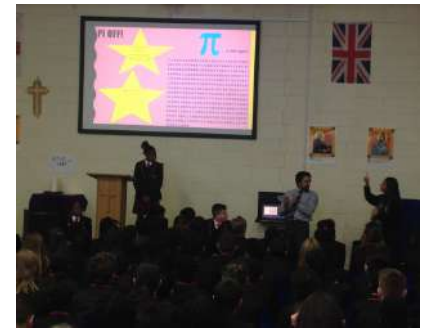

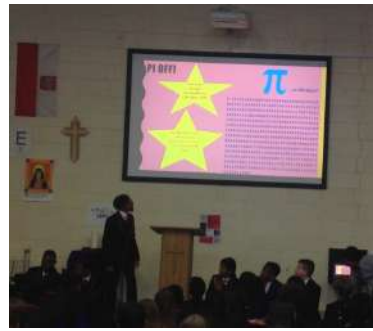

WE'VE SEEN THE
PRACTICAL IMPLICATIONS OF PI

AND OF
COURSE
HAD SOME
FUN!

WE HELD OUR FAMOUS PI OFF!

THIS YEAR OUR WINNER ANGELINA MARTIN

RECITED PI TO 260 DIGITS!

Could an Audi Apprenticeship be the next step?

[Apprenticeship Programme - Apply now](#)

Want to work for one of the world's leading automotive brands? Audi is an exceptional brand that is continually progressing in providing the latest innovative technologies and solutions to the challenges their customers are facing every day. Audi are fuelled by a passion to create the ultimate customer experience, and are looking to invest in individuals who can help them achieve their ambitious plans.

Our apprenticeship programme

The Audi Apprenticeship Programme is an incredible opportunity to learn and earn through gaining a nationally recognised qualification. There are a variety of paths which Audi apprentices can take such as being a Service Technician, a Parts Advisor or a Service Advisor. All Audi apprentices work in an Audi Centre, an environment which enables them to apply all of their new skills and knowledge in practice.

What you'll need

To qualify for the programme, candidates must have achieved GCSE (or equivalent) Grades 9 – 4 in English, Maths and Science. In addition, ideal candidates will have a passion for customer service and new technology and a desire to learn. There has never been a more exciting time to join Audi and drive your career forward with the Apprenticeship Programme.

CAREERS CORNER

Dstl Apprenticeship Applications Are Open!

We are looking to grow our future technical experts.

Join us as an apprentice, earn and gain a degree whilst working alongside some of the world's top tech experts.

[Apply now](#)

The Defence Science and Technology Laboratory (Dstl) is at the heart of the UK's defence and security capabilities, ensuring that our vital and unique innovative science and technology contribute to current and future challenges.

We work with the best people with the best ideas, and apply them in unexpected ways, much of which is operationally critical with the potential to save many lives.

We provide the UK expertise in a spectrum of engineering and scientific fields

DSTL Apprenticeships include:

Degree Level (Level 6)

Data Scientist

Ordnance, Munitions and Explosives Engineer

Digital Technology solutions – Data Analyst

Embedded Electronic Systems Design and Development

Advanced level (Level 4)

Associate Project Manager

Advanced Level (Level 3)

Business Support Administration

Technical Apprentice (Electronic)

New Player Trials - Female only

CLUB: AFC Leyton

DATE: Saturday 14th March, 4th April, 6th June

TIME: 1300 HRS (90 mins)

LOCATION: Salisbury Hall Playing Fields, E4 8ST

ELIGIBILITY: School years 2 to 12 (aged approx 7 to 17)

BOOK: afcleyton.co.uk/new-player-trials/

AFC Leyton is a dedicated female only youth football club in east London. We are also a registered charity. At the core of what we do is high quality football training, open to all, at a low fee. We are fully committed in covering all aspects of football with a common aim of building self-esteem, confidence and life skills.

We operate as a competitive community football club and we are an Arsenal sister club. We also have links to local Regional Talent Centres to ensure a strong pathway for talented players.

We have 3 open new player trial dates coming up. One in March, April and June. All girls that are interested in playing football can come along regardless of their experience and skill level. Our club has something for everyone; Elite players join our league teams, aspiring players join our development teams, and beginners join our foundation sessions.

Our coaches are all DBS checked, safeguarding trained, hold emergency first aid certificates and all have appropriate FA certifications for coaching.

Girls come to us from throughout East London and some of our players have gone on to higher levels of football across England.

Yours faithfully
Tom Cruise

EAST Summer School 2020

We are delighted to announce that EAST Summer School is taking place on Queen Elizabeth Olympic Park this Summer. We are inviting 12 – 17 years olds from the local area to take part in our exciting **FREE** Summer School programme which will be taking place from 27th July – 7th August.

At Queen Elizabeth Olympic Park, we are creating a new exciting cultural and education district - East Bank - which will see UCL, UAL's London College of Fashion, the BBC, Sadler's Wells and the V&A take form in the heart of East London. Ahead of these world class institutions arriving here, they wish to work with local young people in east London as part of this high-quality summer school programme. They will be providing courses in Hip Hop Theatre, Architecture, Game Design, Wearable Tech, Sustainable Fashion, Music Performance, Digital Film and so much more. You can find out more from by visiting <https://www.queenelizabetholympicpark.co.uk/our-story/get-involved/education-and-young-people/east-education-summer-school> where you will see last years programme and updates of our 2020 programme.

In the meantime, we would really like the opportunity to come and speak to your students about this amazing opportunity. It would be great if one of our team could come and present in an assembly or host a stall at lunch time from March 2020. If you are interested in arranging this please email summerschool@QueenElizabethOlympicPark.co.uk.

We hope to see your students taking part at EAST Summer School 2020 and we look forward to meeting you.

Yours sincerely
EAST Summer School
